Delaware

A Great Place to Fish

Did You Know...that Delaware offers 22 fishing and boating sites providing access to vast populations of striped bass, summer flounder and black drum, as well as 11 artificial reef sites, which host and can teem with black sea bass, tautog and other species.

DuPont Nature Center

A Great Place to Learn

Uniquely situated on a piece of Delaware Bay shoreline, the DNC allows visitors to see and learn about aquatic fish and wildlife. Aquariums host live fish, terrapins, and horseshoe crabs. A live nature cam captures close-up activities of animals on the shorelines surrounding the DNC.

Buying a fishing license, paying for boat registrations and purchasing fishing equipment helps fund conservation of natural habitat, clean water and the fish that live there.

Fishy Adventures for Youth and Families

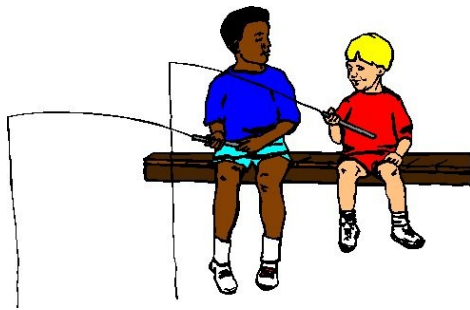

2015 Summer Series

A Fishy Adventure

The Delaware Bayshore Estuary is home to an array of fish, plants, and wildlife.

The goal of the DuPont Nature Center Sportfish Program is to create a better understanding and provide knowledge of marine and estuarine fish. Participants will learn about the Delaware Estuary through educational activities and exploration. During a day-long adventure, they will create take-home projects, learn fish anatomy, and participate in hands-on fishing activities.

At the completion of the Program participants will receive a Jr. Anglers Award!

Each program will offer age appropriate educational experiences. This is a free program, space is limited and registration is on a first-come basis. You must call to receive a Registration Form.

2015 Sportsfishing Programs

Youth Fish-n-Fun Day
June 23rd
8:30 am to 4:00 pm
Ages 6-9

Youth Fish-n-Fun Day
June 30th
8:30 am to 4:00 pm
Ages 10-13

Family Fish-n-Fun Day
July 5th
8:30 am to 4:00 pm
Learn and Fish together as a family!

Pre-registration is required for all programs
